INSTITUTE FOR ADVANCE STUDIES AND COOPERATION

Dear Esteemed Colleagues, Partners, and Friends,

As we reflect on the remarkable success of the **World Changers Davos Summit**, held on 22 January 2025 in Davos, Switzerland, I want to extend my deepest gratitude to each one of you for your invaluable participation, dedication, and unwavering support. This summit, held under the auspices of the Lan Space and supported by key partners, brought together distinguished leaders, trailblazers, and experts from diverse fields across the globe. It served as a dynamic platform for fostering meaningful dialogue on the most urgent challenges and opportunities of our time, with a focus on the critical intersections between ethics, innovation, and global sustainability. Throughout the summit, we engaged in thought-provoking discussions surrounding a broad range of topics such as climate action, digital transformation, social entrepreneurship, and the future of health and education. The wealth of knowledge shared, the collaborative exchanges, and the bold ideas presented by our esteemed speakers and participants have inspired new pathways forward, grounded in practical solutions and collective responsibility. The success of this summit stands as a testament to the commitment and expertise of all involved. Your contributions were pivotal in shaping the conversations, and your innovative ideas have sparked new possibilities that will resonate long after this event concludes. At the core of the World Changers Davos Summit lies our shared commitment to creating a more ethical, inclusive, and sustainable world. The powerful collaborations and partnerships fostered during this summit reinforce our belief that transformative change is possible when we work together, with purpose and passion. As we look ahead, let us carry the momentum generated by this summit into our respective communities and industries, continuing to drive forward-thinking solutions that will leave a lasting impact on the world.

Thank you once again for your dedication, collaboration, and partnership. I am excited to see what we will accomplish together as we work toward a brighter and more sustainable future.

Warm regards,

Prof. Gabriele Pao-Pei Andreoli
Founder, World Changers Summit

World Changers Davos Summit 2025

Introduction The Institute for Advanced Studies and Cooperation (IASC) is pleased to announce the World Changers Davos 2025, an extraordinary event designed to foster dialogue, collaboration, and innovation in a setting that is globally renowned for shaping the future. This summit will take place on January 22, 2025, at the exclusive Lan.Space in Davos, Switzerland, bringing together distinguished leaders, innovators, and changemakers to explore critical global challenges and opportunities. Hosted during the prestigious World Economic Forum in Davos, this gathering will focus on driving sustainable development, ethical growth, and pioneering innovations across diverse sectors.

Summit Overview

The World Changers Davos 2025 aims to address the most urgent challenges of our time through collaborative discussions, groundbreaking panels, and insightful presentations. The summit's focus will be on sustainable economic models, the integration of technology with social impact, and the development of strategic partnerships to foster a brighter future. The event provides a platform for influential thought leaders to unite across disciplines and explore how we can create innovative solutions while adhering to ethical principles.

Held at the cutting-edge Lan.Space, the summit will facilitate an atmosphere of creativity and forward-thinking discussions. Attendees will engage with prominent figures from government, business, technology, media, and civil society, making this an essential meeting point for those committed to transformative change.

Event Highlights

- **Venue and Atmosphere:** The event will be held at the prestigious Lan.Space in Davos, Switzerland, a cutting-edge venue designed to foster creativity and innovation. Attendees will experience a highly interactive environment, enhanced by a sophisticated roundtable setup, creating an intimate atmosphere for profound dialogues.
- **Collaborative Discussions:** The summit will feature high-level panels, talks, and roundtable discussions on a range of topics, including sustainability, digital assets, media evolution, and the convergence of traditional and emerging financial systems.
- **Wine & Food Tastings:** To complement the intellectual engagement, the summit will offer an exquisite blend of Swiss culinary culture, fostering an opportunity to connect and exchange ideas in a relaxed environment.
- **Live Performances and Podcasting:** Engaging with contemporary media, the summit will also feature live podcasting sessions and artistic performances, offering participants a multi-sensory experience.

Topics The World Changers Davos Summit include:

- **Driving Sustainable Futures: Green Economy and Policy Innovations"** A panel focusing on the intersection of sustainable economic policies, green innovation, and long-term growth strategies for a sustainable world. Speakers will include experts in environmental policy, technology, and entrepreneurship.

- **Round Table Discussion: "Shaping the Future: Resources, Investments, and Global Strategies"**
A critical panel exploring how resource management and strategic investments are key to addressing global challenges in the 21st century. This session will bring together experts in economics, technology, and international relations to map out solutions.

- **"Last Call: How to Survive the Traditional Media Extinction"**
This session will tackle the changing landscape of media, including the fall of traditional channels and the rise of social media and podcasts. Experts will offer insights into navigating this shift and creating sustainable media ventures.

- **"The Digital Frontier: Investing and Innovating in the New Era of Digital Assets"**
A deep dive into the world of digital assets, blockchain, and decentralized finance. The panel will explore the risks, rewards, and ethical considerations of investing in this fast-evolving space.

- **"Bridging Traditions: Integrating Legacy Finance with Digital Asset Innovations"**
This panel will discuss how legacy financial institutions can integrate with the rapidly growing digital asset space, offering strategies for innovation while ensuring trust and security.

- **"Guardians of Order: The Intersection of Law, Diplomacy, and Global Governance"**
A conversation about the role of law and diplomacy in shaping global governance, stability, and conflict resolution. Experts from international relations and legal frameworks will share their insights.

- **World Changers Power Women's Talk**
An inspiring session that will feature accomplished women leaders across industries, discussing their contributions to innovation, leadership, and empowerment.

- **"Ethical Growth: Investing in People, Planet, and Profit"**
This panel will discuss how organizations can balance financial success with ethical considerations, focusing on sustainability and positive social impact.

Speaker at The World Changers Davos Summit will bring together a diverse array of speakers who are pioneers in their respective fields. Some of the key figures:

Sheikh Abdul Aziz Al Nuaimi (Green Sheikh):
Environmental adviser to the Government of Ajman
Shared insights into sustainable practices and eco-friendly development in the Gulf region, emphasizing the role of leaders in protecting the environment and promoting green initiatives for future generations.

Sheikh Omar Al Nuaimi:
Technology Strategist at Microsoft
Discussed the intersection of technology and environmental sustainability, offering perspectives on how innovation in AI and digital solutions can drive green initiatives across industries.

Paul Flynn:
Founder of Carbon Orchard and GRO Foundation
Outlined groundbreaking approaches to carbon offsetting and ecosystem restoration, focusing on the power of businesses and individuals to combat climate change through collective action.

Mete AI:
Founder of ICB Verse
Discussed the future of AI in shaping sustainable solutions, particularly in the areas of data analytics, climate change, and urban planning, with an emphasis on creating smart, eco-friendly cities.

Sir Prof. Dr. Gabriele Pao-Pei Andreoli:
President of IASC & Founder of W.C.S
Articulated the vision and objectives of the summit, emphasizing the need for innovative and ethical solutions to regional challenges, while stressing the importance of collaboration between international organizations.

Vít Jedlička:
Politician, Publicist, and Activist
Spoke on the role of grassroots movements in driving policy change, particularly in the context of environmental activism and sustainable governance.

Dr. Steven Melnik:
Chairman of Lives Amplified
Highlighted the role of nonprofit organizations in amplifying voices for environmental justice and social equity, discussing strategies for creating impactful social change.

Prof. Martin Nkafu Nkemnkia:
President of NCDEIF Nkemnkia Community Development Empowerment International Foundation
Focused on the intersection of community development and environmental sustainability, sharing initiatives aimed at empowering communities through education and resource conservation.

Dave Crane:
Award-Winning Speaker, Author & CEO Mentor
Engaged the audience with inspirational thoughts on leadership, encouraging individuals and organizations to adopt sustainable business practices that foster long-term growth and environmental stewardship.

Sir Dustin Plantholt:
Founder of BlockBuzz & HeirStory
Spoke about the integration of blockchain technology in sustainable business models and how transparency and decentralization can help drive environmental accountability.

Vineet Budki:
Managing Partner & CEO, Sigma Capital
Explored the role of investment in environmental sustainability, outlining strategies for aligning financial goals with the global push for a greener future.

Bill Inman:
Board Member, Founder, Advisor at High Growth Companies
Shared insights into corporate governance and the importance of embedding sustainability into the core strategies of high-growth companies.

Adrian Zduńczyk:
Founder of The Birb Nest

Discussed the impact of startups and innovation in addressing environmental and social issues, focusing on how young entrepreneurs are shaping the future of sustainability.

Moreno Zucchetti:
President, International Anti-Corruption Assembly (Malta Office)
Emphasized the need for global cooperation to fight corruption and promote environmental justice, advocating for strong regulatory frameworks and ethical business practices.

Colin Breeze:
Executive, Investor, Attorney
Highlighted the importance of cross-sector collaboration between the legal, financial, and corporate sectors in advancing sustainable practices.

Dr. Nasir Latif:
Chairman, Borneo Corporation
Explained the role of corporate leaders in fostering sustainable business practices, particularly in industries such as agriculture and natural resource management.

Prof. Dr. Summy Smart Francis:
Special Adviser to Entrepreneurship & Innovation Nigeria (ODSG)
Discussed how entrepreneurship can drive sustainable development, particularly in emerging markets, and shared successful examples of green innovation from Nigeria.

Ed McMullen:
Former U.S. Ambassador to Switzerland
Shared his experience in international diplomacy, focusing on the importance of global cooperation in addressing climate change and other environmental challenges.

Steven Charles Watkins Jr:
CEO of Huxley Rock LLC
Explored the role of the private sector in advancing sustainable technologies, discussing how companies can lead the way in reducing carbon footprints and promoting green practices.

Michael Sherwin:
Former U.S. Acting Attorney for the District of Columbia
Spoke on the legal frameworks needed to address environmental crime and promote environmental protection, emphasizing the importance of enforcement and accountability.

Chris Voss:
Businessman, Author, and Academic
Shared strategies on negotiation and communication, highlighting how leaders can engage stakeholders in discussions about sustainability and environmental action.

John Franchi:
CIA Station Chief
Discussed the intersection of intelligence and environmental security, focusing on the role of global security in protecting environmental resources from exploitation and illegal activity.

Basma AlBuharian, PhD:
Managing Director of the Centre for Fourth Industrial Revolution, Saudi Arabia (WEF Affiliate Centre)

Discussed the role of advanced technologies like AI, IoT, and blockchain in shaping the future of environmental sustainability, with a focus on innovation in the Middle East.

Prof. Dr. Anabel Ternès von Hattburg:
President of the Club of Budapest Germany and Board Member of Friends of Social Business, CEO of Experts for Life
Revisited the discussion on the intersection of social business and environmental challenges, emphasizing the need for responsible leadership in driving global sustainable initiatives.

Selene Giupponi:
Managing Director, Europe Resecurity Inc., Secretary General, and Founder at Women4Cyber Italy
Spoke on cybersecurity's role in protecting critical infrastructure, including environmental and energy systems, and emphasized the need for women's leadership in technology and sustainability.

Lan Tô Tschirky:
Founder of Lan to Capital, The Lan Space, and Lan Health
Discussed innovative solutions for sustainable development in the wellness and health sectors, exploring how these industries can contribute to global sustainability goals.

Dr. Graziella Thake:
Chief Executive Officer of The Optimisation Hub, UN
Talked about the importance of data and optimization in driving environmental solutions, particularly in the context of UN initiatives for sustainable development.

Jessica Chaijaya:
Speaker, Investor, Philanthropist
Shared her vision of integrating sustainable development into philanthropy and investment, focusing on how conscious investments can drive both financial and environmental returns.

Adam Pope:
Founder of Spencer Churchill Law
Discussed the legal and regulatory landscape for sustainability, focusing on the critical role of policy and law in advancing global environmental goals.

Patti Britt Campbell:
Executive Leadership Coach
Spoke about the role of leadership in fostering sustainable practices, sharing techniques for inspiring others to take action toward a greener future.

Alex Zagrebelny:
Founder & Chairman of R.evolution Group
Discussed innovative models for business transformation in alignment with sustainability goals, highlighting the need for collaboration across industries to tackle global challenges.

Open Remarks by Alexandra Sasha:
1st Deputy to Danish Parliament/ Former European Parliament Candidate/ Entrepreneur
Provided opening remarks on the role of global leadership in addressing environmental issues, emphasizing Denmark's commitment to sustainable practices and climate action.

Domenico di Conza:
Spokesperson for the United Nations Academic Impact and Rector of the Popolare Luce University
Offered insights on the importance of academic collaboration in finding solutions to environmental and social challenges, highlighting key UN initiatives in education for sustainable development.

Artem Shestakov:
Photographer, Producer, and Environmental Advocate
Shared his unique perspective on environmental storytelling, using visual media to raise awareness and inspire action toward protecting the planet.

Prof. Dr. Fabio Ardossi
AI Advisor & Board Member of AlSaihati Intercultural Center
Offered key insights into the transformative role of artificial intelligence in fostering intercultural dialogue and global understanding. Emphasized the importance of academic cooperation and ethical innovation in developing sustainable solutions that respect cultural diversity and promote international peace.

John Franchi
Former CIA Station Chief
Shared his extensive experience in global intelligence, providing a unique perspective on the intersection of international security and diplomacy. Highlighted the critical role of strategic partnerships and cultural intelligence in promoting stability and preventing conflict in an increasingly interconnected world.

Conclusion: The World Changers Davos Summit 2025 is an unparalleled opportunity to connect with visionaries from around the globe and contribute to the ongoing dialogue that will shape the future. Through these dynamic discussions, attendees will not only gain actionable insights but also forge partnerships and collaborations that drive meaningful change.

As we embark on this transformative journey, the World Changers Davos Summit aims to lead the way in advocating for innovation with integrity, sustainability, and ethics at the forefront. Join us as we work together to create a brighter, more equitable future for all.
